heARTWORKs at ResidenceSEA

Social graphic design and punk music in Heraklion

On Saturday June the 20th at the beach of Heraklion, ResidenceSEA organizes a new event called "heARTWORKs". heARTWORKs is a presentation by the graphic designer Kostas Karnikis about graphic design work and digital art with the icon and the shape of the human heart. Many commercial logos, digital art, illustrations and stencils have the shape of the human heart. Kostas questions this well-known shape and analyzes if it fears or clears our minds.

The evening at ResidenceSEA will continue with three exciting bands: OI XARO! is a band from Athens, playing psychedelic garage. THYMICS is a band from Heraklion, playing punk rock garage. ByPOLAR is a post-punk band with influences from the 90's, who played at different festivals in Heraklion.

Doors open at 21:00, ResidenceSEA is located at the seaside behind the Pankritio stadium. The entrance is free.

Practical information:

Download photos of the Artists here <http://maakali.org/ResidenceSEA/heartworks>

All past events can be found at the ResidenceSEA blog at: www.maakali.org/ResidenceSEA

About ResidenceSEA:

ResidenceSEA - Sensing your Environment through Art - is an artist residence in Heraklion for performers, researchers and multimedia artists to work and play. ResidenceSEA aims to bring international artists to Crete, giving them a space to experiment and to interact with the local artists and creatives. Since 2012 ResidenceSEA has hosted 15 groups of international artists, working on interdisciplinary performances and installations. For more information see our blog at <http://maakali.org/ResidenceSEA>
